

CYBERSECURITY ASSESSMENT

UNDESTAND YOUR READINESS FOR COMMON SECURITY THREATS

BDO-led Assessment highlights

Identify a baseline of your organisation's cybersecurity policies

Use Microsoft Security capabilities to generate an overview of areas of focus

Map baseline and security scan results to common threat scenarios

Develop joint plans and next steps

Human-operated Ransomware and data leaks from insider threats are two of the most prevalent security risks that organisations are facing. Over 98% of these attacks can be prevented by having basic security hygiene processes and solutions in place¹. How aware is your organisation of the policies and activities that can help to strengthen your cybersecurity posture?

Improve your security awareness with a Cybersecurity Assessment

Organisations today are addressing security threats from numerous locations while having to work with multiple stakeholders both within and outside of their organisation to maintain compliance with various industry and regional regulations. Get a jump start on improving your security posture, with Microsoft Security solutions, by scheduling a Cybersecurity Assessment.

We can help you develop a strategic plan customised for your organisation and based on the recommendations of Microsoft experts in security. Gain awareness of the current state of your security aligned to industry benchmarks, and support on how to remediate vulnerabilities and upgrade your security posture for the long term.

Why you should attend

This assessment is designed to help you understand the importance of security and how to protect your organisation from potential threats. We will also discuss the latest security threats and your organisation can stay aware and ahead of the curve. By attending this engagement, you can:

Engage in hands-on activities to help you gain an understanding of common threat scenarios

Walk away with actionable next steps grounded in industry accepted benchmarks

Get a documented status of organisational defences against common threats

Better understand how to accelerate your security journey using the latest Microsoft Security tools
