4. Tax relief for the married couple's allowance is given at the rate of 10%.
5. Exempts the first tranche of dividend income from tax but the exempted income does use up tax bands and count towards other income thresholds.
6. Exempts the first tranche of savings interest income by giving an effective tax credit of £200 to basic and higher rate taxpayers - not available to additional rate taxpayers.
7. Exempts the first £1,000 of income. Can be claimed where income is higher but related expenses cannot. Cannot be claimed where rent-a-room £7,500 exemption applies.

This may apply to Coronavirus Job Retention Scheme payments for 2019/20 and 2020/21, and to Self Employment Income Support Scheme payments for 2020/21.

REMITTANCE BASIS CHARGE FOR NON-UK DOMICILIARIES

An individual who is not UK-domiciled in a tax year but who is tax resident in the UK will be taxed in the UK on UK source income and capital gains. However, such individuals can opt to be taxed on the remittance basis (broadly on non-UK income and capital gains/value brought into the UK) in the tax year rather than on their worldwide income and capital gains. Where this option is taken an annual charge is levied as below:

Tax years of UK residence	Charge 2020/21
Up to 7 tax years	Nil
7 or more out of the previous 9 tax years	£30,000
