KEY FACTORS AFFECTING THE MONTH

- Despite this, Springboard figures showed footfall on the high street averaged +1.7% in August.

COMMERCIAL

August 2024: -0.7%

August 2024: -0.7%

COMMENTS FROM COMMERCIAL RETAIL

- Total LFL sales of +2.1% achieved by charity retailers didn't guite match the strong performance of the commercial high street which saw in-store sales grow by +5.2%.
- Commercial high street in-store *lifestyle* LFL sales grew by +2.4%, in-store fashion sales grew by +5.8%, and in-store homeware sales grew by +16.4%.
- Looking at the economy, GDP grew by just +0.2% in the three months to July (ONS), compared with the three months to April, and down from +0.3% in the three months to June. Business groups blame the Chancellor's £25bn increase in employer NI contribution, which came into force in April alongside a significant rise in the national living wage, for constraining growth. Inflation rose to +3.8% in the year to July (ONS) - the highest since January 2024.
